PRESS RELEASE

Sansera Engineering Limited (Sansera) and Airbus entered a contract for manufacture, supply and support of the Airborne Intensive Care Transport Module for light and medium transport aircraft programs.

Tuesday, June 03, 2025, Bengaluru – Sansera, known for developing complex and critical precision engineered components for the automotive and non-automotive sectors over multiple decades, has entered a long-term contract of value approx. INR 1,600.00 million (USD 18.80 million) with Airbus Defence and Space for the manufacture, supply, and support of the Airborne Intensive Care Transport Module (ICTM) for light and medium transport aircraft programs.

The ICTM is an advanced airborne medical evacuation system designed to transport patients with varying levels of medical criticality, including those requiring intensive care, during emergencies and health crises.

For the first time, Airbus has selected Sansera, an Indian supplier for the manufacturing of the ICTM Kit. Under this contract, Sansera will be responsible for the precision machining and structural assembly of the ICTM units. The key notable point of the contract includes:

Commenting on this Mr. S Sekhar Vasan, Chairman & Managing Director of Sansera said: “I am proud to announce that Sansera has been selected as the Indian supply chain partner for Airbus, a leading global aerospace & defence company. This strategic partnership positions us as their trusted supplier for the manufacture, supply, and support of the Airborne Intensive Care Transport Module for light and medium transport aircraft programs, marking a significant milestone in our journey as a precision manufacturing leader. This achievement reflects decades of excellence in innovation, automation, and quality that have established Sansera as a trusted name in the global aerospace supply chain and defence industry. This partnership not only strengthens the Hon'ble Prime Minister's Make in India initiative by establishing advanced aerospace manufacturing capabilities in India but also position us in the international market and India's self-reliance in critical defence and aerospace technologies.”

About Sansera Engineering Limited

Sansera was incorporated in 1981 and is an engineering-led integrated manufacturer of complex and critical precision engineered components across automotive and non-automotive sectors. Within the automotive sector, we manufacture and supply a wide range of precision forged and machined components and assemblies, such as connecting rod, rocker arm, crankshaft, gear shifter fork, stem comp, and aluminium forged parts, which are critical for engine, transmission, suspension, braking, chassis and other systems for the 2-wheeler, passenger vehicle and commercial vehicle verticals. Within the non-automotive sector, the Company manufactures and supplies a wide range of precision components for the aerospace, defence, semiconductor, and other segments. For more information about the Group and its businesses, please visit www.sansera.in.
