SANSERA INFORMATION SECURITY MANAGEMENT SYSTEM POLICY

Sansera is driven by innovative manufacturing and takes responsibility to produce quality products that are highly value-added and developed using advanced technology.

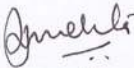

We continually strive towards better business practices with good governance while fulfilling our social commitments for the welfare and betterment of society at large.

The Management and all employees of Sansera are committed to an effective **Information Security Management System (ISMS)** in accordance with its strategic business objectives and stake holder's expectations.

To achieve the above, Sansera shall:

- Establish and implement policies, processes, and the appropriate organization structure (ISMS) to **protect the information** assets of Sansera and its customers from both external as well as internal threats.
- **Continually improve the ISMS** by adopting a life cycle approach through establishment and regular monitoring of measurable security objectives.
- Ensure **compliance with business, legal, regulatory, and contractual security obligations** as applicable.
- Ensure **confidentiality, integrity, and availability** of the information assets of its customers and other stakeholders.
- **Develop, implement, test and maintain a Business Continuity Plan.**
- Create mechanisms to identify and review the **risk and impact of breaches** in protected information assets.
- **Communicate all pertinent security policies** to employees, customers, and other interested parties as applicable.

This policy applies to all employees of Sansera and other users of Sansera's information processing facilities. The management and employees should ensure that this policy is implemented, communicated, monitored, and maintained at all levels of the organization and regularly reviewed for compliance and continual improvement.
